Connections - May

May Connections Newsletter

1. Carbide Tipped Hole Cutters
2. IDEAL: Sir Nickless Rotary Armored Cable Cutter
3. P&S PlugTail
4. HALO Energy Star Residential Solutions

Ideal introduces carbide tipped hole cutters. May special: # 36-311 4 pc carbide hole cutter kit - **NOW \$74.95** if you mention you saw it in Connections. Also check out the new MC cable cutter available from **Ideal Industries**. Works on all popular type of MC cable products.

Pass & Seymour introduce their next generation of plug in wiring products saving you valuable installation time.

Want to save even more money? Install **Halo** fluorescent recessed housings in your next residential or commercial project. Good lighting & great energy savings! Thanks for taking a few minutes to review these unique products.

Don't forget, we're celebrating the Grand Opening of our new Peru, IL facility with an open house / trade show on Thursday, May 21st.

No vendor price adjustments to announce this month

Carbide Tipped Hole Cutters

- SmoothStart™ pilot drill prevents carbide damage by gradually guiding cutter to material.
- Precision ground carbide teeth for fast cutting of clean, round holes.
- Designed specifically for sheet metal cutting, even stainless steel
- Over drill flange built in to prevent penetration beyond the sheet metal

[More Information](#)

Sir Nickless™ Rotary Armored Cable Cutter

- Handles all common BX, MCAP, MC and Flex cables
- Blade cuts armor without damage to internal conductors
- Splices cleanly through casings with only a few turns
- Handle knob stores up to six replacement blades

P&S PlugTail™. Proven to be the fastest, most reliable wiring device installation for any commercial job.

At rough-in, install the pre-stripped leads of a PlugTail connector instead of pigtails. At device installation, click in the connector and tighten the mounting screws — done in less than a minute.

Pass & Seymour introduced that new approach to commercial building device installation in 2004. Simple but revolutionary, PlugTail has enabled contractors across the continent to beat "impossible" deadlines, optimize scheduling of their most capable employees, and provide superior installations to their customers. Now, with an ever-widening selection of quality PlugTail Wiring Devices — all using the same rugged, easily installed connector — PlugTail can save time, improve flexibility and cut costs across a broad range of commercial projects. [More Information](#)

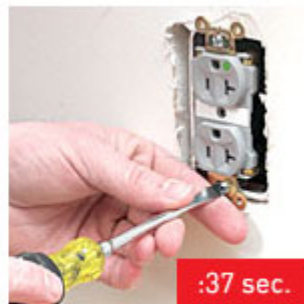

Device installation takes less than a minute.

1) When it's time for finish wiring, just remove the plastic wrapper.

2) Connect the PlugTail device with just one click.

3) Mount the device to the box — and you're done.
