Counterfeit Circuit Breakers are once again in the news.

Since early 2007 Springfield Electric has been reminding customers to be cautious when purchasing electrical products from unknown sources, especially on products where reliability cannot be guaranteed and product failure could lead to disaster. Counterfeit Square D circuit breakers has been a particularly impacted product due to (A) the company's past reputation for quality and (B) the continued popularity of the product insures high demand, particularly when they are offered at "extreme discounts". But beware; if it seems too good to be true, it probably isn't. Rest assured, Springfield Electric Supply Company will sell only original Square D circuit breakers, obtained only through Square D.

That's our commitment to product and service excellence you can count on.

BRK 9120 Series Alarms

SA9121

THE REVOLUTION
Faster, Better
Smarter

What other "Contractor Preferred" features does the 9120 Series product line have?

- A Dust Cover is included to keep the alarm clean during construction. Also the same easy Installation/maintenance Features pioneered on the 4120 series have been retained:
- Universal bracket works with any standard electrical box up to 4" in size.
- A large opening in the mounting bracket for easy access to wiring.
- A battery pull-tab that keeps battery fresh until the home is occupied.
- A Side Load Battery Drawer allows for easy battery installation/replacement without removing the alarm from the ceiling or wall. (Model 9120B and SC9120B only).
- AC Quick-Connect Power connector
- Keyhole slots in mounting bracket eliminate the need to completely remove the mounting screws from the electrical box to install the bracket.

Introducing H3 from HALO

HALO - The First Name In Lighting

The H3 offering provides a NEW DIMENSION IN LIGHTING: The H3 family with ultra compact trims of 3" aperture and in a variety of finishes - some classic like white or black, and some new like Satin Nickel, Antique Copper and Tuscan Bronze. Eight brand new housings satisfy every installation need from new construction to remodel with features designed for quick installation such as GOT NAIL! bar hangers and Slide-N-Slide junction boxes. Recessed lighting has always been popular for its ability to deliver effective lighting while maintaining an unobtrusive ceiling appearance. The Halo H3 trims deliver effective illumination yet they have a low impact presence that does not intrude on the main decorating elements in a space. The trims feature meticulous die cast or machined detailing and they can accommodate either low voltage or line voltage lamps depending on the housing used. The 3" aperture H3 trims also match the design and construction of Halo 4" and 5" trims allowing coordinated ceiling appearance.
