## Smart Strip®

Smart Strip® monitors the flow of electricity to the Control Outlet and when there is a significant drop, it switches off the power to the Controlled Outlets. So when the control appliance goes into sleep mode or is shut off, the Smart Strip® saves energy and money!

### Control Outlet

Plug a computer or television into this outlet. This outlet controls the Controlled Outlets.

### Always on Outlets

Plug equipment that should not be turned off, such as a fax machine or cordless phone, into these outlets. The power to these outlets is always on.

### Controlled Outlets

Plug peripherals such as a monitor, printer or DVD player into this outlets.

## Dottie Grabit

This is the world's first all in one damaged screw and bolt remover. Dottie's Grabit Kit is a must for all Professionals; it will handle screws too numerous to list, fasteners and broken bolts. This product really does set itself apart from anything on the market. Each Grabit Kit is supplied with two extractors; each is made of high quality hardened steel and will retrieve a wide range of screw sizes.
